EDUCATION

MA, Communication Design -
Milano Creative Institute, 2020

BA, Visual Design - Lombardy
School of Arts, 2018

PRODUCT DESIGN / UX / SYSTEMS

Product designer with 7 years of experience creating accessible digital products and scalable visual systems for SaaS, education and consumer brands. Experienced across discovery, interaction design, prototyping, usability testing and design-system governance, with strong collaboration across product and engineering teams.

EXPERIENCE

Senior Product Designer

Studio Forma Digital | Milan, Italy | 2023 - Present

- Lead end-to-end product design for a B2B learning platform used by 45,000+ monthly learners, from discovery interviews and journey mapping through prototyping, validation and developer hand-off.
- Redesigned onboarding and course discovery, increasing activation by 18% and reducing related support tickets by 22% within two release cycles.
- Created and governed an 80+ component design library with responsive behaviour, interaction states and accessibility guidance aligned with WCAG 2.2.

Product Designer

Nexa Learning Technologies | Remote / Milan | 2020 - 2023

- Designed responsive learning workflows, dashboards, assessments and account-management experiences in collaboration with product managers, developers and researchers.
- Planned moderated usability tests, synthesised findings and translated evidence into prioritised interface improvements and detailed implementation specifications.

Visual Designer

Atelier Nova | Milan, Italy | 2018 - 2020

- Developed brand systems, campaign assets and reusable presentation/social templates for hospitality, lifestyle and education clients.

SELECTED CASE STUDIES

Onboarding redesign

mapped learner drop-off points, prototyped new discovery flows and validated the final experience through moderated usability testing.

Accessible design system

created reusable components, interaction states and WCAG-aligned documentation adopted across two product squads.

Mobile assessment experience

simplified question navigation, feedback states and completion flows for small-screen learners.

ADDITIONAL IMPACT

- Design critique lead - introduced a fortnightly cross-squad critique format that improved design consistency and earlier risk identification.
- Research repository - established a searchable insight library connecting interview evidence, usability findings and product decisions.
- Mentored two junior designers on interaction design, accessibility reviews and developer hand-off.

PROFESSIONAL DEVELOPMENT

Google UX Design Certificate, 2021 | Languages: Italian (native), English (C1)
