Senior Operations Director | Service Delivery & Transformation

Oslo, Norway | +47 400 12 784 | marcus.andersen@example.com | marcusandersen.example

97% SLA attainment

31% fewer processing errors

42-person distributed team

EUR 18M managed revenue

EXECUTIVE PROFILE

Operations leader with 13+ years of experience scaling service teams, strengthening delivery controls and leading cross-functional transformation. Combines commercial judgement, people leadership and process discipline to improve service quality, cost control and client outcomes across multi-country environments.

PROFESSIONAL EXPERIENCE

Senior Operations Director

Northline Advisory | Oslo, Norway | 2021 - Present

- Own operational performance across five European client programmes representing EUR 18M in annual managed revenue, including service delivery, workforce planning, risk controls and senior-client governance.
- Introduced weekly KPI governance, escalation routines and root-cause reviews that improved SLA attainment from 88% to 97% within nine months.
- Lead a 42-person hybrid organisation across Norway, Sweden and Poland with six direct reports; partner with Finance, Commercial and HR on forecasting, hiring, vendor negotiations and quarterly business reviews.

Operations Manager

Aurora Business Services | Oslo, Norway | 2016 - 2021

- Managed customer operations for three enterprise accounts and a 25-person team, with accountability for capacity, quality, training, escalations and performance management.
- Standardised onboarding and quality-control procedures, reducing avoidable processing errors by 31% while improving manager visibility through new capacity and service dashboards.

Team Lead, Client Services

Nordic Connect Group | Bergen, Norway | 2013 - 2016

- Supervised 12 client-service coordinators, handled complex escalations and supported coaching, quality reviews and shift planning; promoted after 18 months.

SELECTED OPERATING INITIATIVES

Operating model redesign

consolidated service routines, ownership and escalation paths across five European programmes.

Workforce planning framework

introduced demand/capacity reviews linking client forecasts, hiring plans and service-risk indicators.

CORE CAPABILITIES

- Operations strategy
